BILLING CODE 1410-31-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

45 CFR Part 1397

Removal of Standard Setting Requirements for Medical and Nonmedical Facilities Where SSI Recipients Reside

AGENCY: Administration for Children and Families, Department of Health and Human Services.

ACTION: Final rule.

SUMMARY: This notice removes from the Code of Federal Regulations the provisions on standard setting requirements for medical and non-medical facilities where Supplemental Security Income recipients reside. These standard setting requirements implement the requirements of the Keys Amendment, Section 1616(e) of the Social Security Act, as amended. This action is necessary because, as of March 31, 1995, Federal responsibility for the

false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be fined not more than \$10,000 or imprisoned not more than five years, or both. 18 U.S.C. 1001.

Keys Amendment will be assumed by the independent Social Security Administration as required by statute.

DATES: Effective date is May 16, 1995.

FOR FURTHER INFORMATION CONTACT:

Madeline Mocko (202) 401-9223.

SUPPLEMENTARY INFORMATION: The Keys Amendment, Section 1616(e) of the Social Security Act, requires States to establish and enforce standards for residential facilities where significant numbers of Supplemental Security Income (SSI) recipients reside; make a summary of these standards available for public review; make copies of the standards (and State enforcement procedures) available on request; and certify annually to the Secretary that these requirements have been met.

Under the Social Security Independence and Program Improvement Act of 1994, Public Law 103-296, effective March 31, 1995, the responsibility for administering the Keys Amendment requirements was changed. Pursuant to section 107(a) of that Act, effective March 31, 1995, the certifications required by section 1616(e) of the Social Security Act come under the jurisdiction of the Commissioner of the independent Social Security Administration (SSA). Therefore, the regulations at 45 CFR Part 1397 which implement the Keys Amendment and which are currently the responsibility of the Administration for Children and Families, must be removed in order that the independent SSA agency may promulgate guidance as it deems appropriate.

Impact Analysis

Regulatory Procedures—Executive Order 12866

This final Rule has been reviewed pursuant to Executive Order 12866. Executive Order 12866 requires that regulations be reviewed for consistency with the priorities and principles set forth in the Executive Order. ACF has determined that this rule is consistent with these priorities and principles.

Regulatory Flexibility Act

Consistent with the Regulatory Flexibility Act (Pub. L. 96-454), which requires the Federal government to anticipate and reduce the impact of rules and paperwork requirements on small businesses and other small entities, the Department certifies that this rule has no significant effect on a substantial number of small entities. Therefore, a regulatory flexibility analysis is not required.

Paperwork Reduction Act

This requirement contains no information collection requirements which are subject to review and approval by OMB under the Paperwork Reduction Act of 1980 (44 U.S.C. 3500 *et seq.*).

List of Subjects in 45 CFR Part 1397

Grants programs—social programs, Health facilities, Reporting and recordkeeping requirements, Supplemental Security Income (SSI).

Dated April 5, 1995.

Mary Jo Bane,

Assistant Secretary for Children and Families.

Part 1397 Subchapter K—[Removed and Reserved]

For the reasons set forth in the preamble, and under the authority of section 107(a) of Pub. L. 103-296 and section 1102(a) of the Social Security Act, 45 CFR Subchapter K is removed and reserved and 45 CFR Part 1397 is hereby removed.

BILLING CODE 4184-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 97

[PR Docket No. 94-59; FCC 95-163]

HF Digital Communications in the Amateur Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action amends the rules for the amateur service to authorize automatic control of stations transmitting digital emission types on the High Frequency (HF) amateur service bands. This amendment was necessary because, except for temporary authority the Commission issued to permit a feasibility study, automatic control has not been authorized on the HF bands. The intended effect of the final rule is to authorize automatic control of amateur stations transmitting digital emissions subject to two conditions: The automatically controlled station either must be connected to another station that is under manual control, or the automatically controlled station must transmit only within a subband designated for communications between automatically controlled stations.

EFFECTIVE DATE: July 1, 1995.

FOR FURTHER INFORMATION CONTACT:

William T. Cross, Federal Communications Commission, Wireless Telecommunications Bureau, Private Wireless Division, Washington, DC 20554, (202) 418-0680.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, adopted April 17, 1995, and released April 27, 1995. The complete text of this action is available for inspection and copying during normal business hours at the FCC, Room 239, 1919 M Street, NW., Washington, DC. The complete text of this action, including the rule amendments, may also be purchased from the Commission's copy contractor, ITS, Inc., (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

Summary of Report and Order

1. The rules for the amateur service have been amended to authorize automatic control of stations transmitting digital emission types on the High Frequency (HF) amateur service bands, subject to two conditions for such operation. The automatically controlled station must either be connected to another station that is under manual control, or the automatically controlled station must transmit within a subband designated for this purpose.

2. The amateur service community stated that it generally has a need for stations to transmit digital emission types on the HF bands while under automatic control. The comments also established that there is concern that such transmissions could cause interference to other communications. We are amending the rules, therefore, to permit stations in the amateur service to transmit a digital emission on the HF bands under automatic control. Such operation will result in greater flexibility in experimentation and development of digital communications. The Commission recognized the concerns of those who oppose the proposal on the basis of potential interference, and in response to these concerns it limited when automatic control can be employed. First, the control operator of the station that is connected to the automatically controlled station must prevent the automatically controlled station from causing interference. Second, the Commission designated subbands to which transmissions between two automatically controlled stations must be confined.

3. The rules are set forth at the end of this document.

4. The rules contained herein have been analyzed with respect to the Paperwork Reduction Act of 1980, 44

U.S.C. 3501 *et seq.*, and found to contain no new or modified form, information collection and/or record keeping, labeling, disclosure, or record retention requirements and will not increase or decrease burden hours imposed on the public.

5. This Report and Order is issued under the authority of sections 4(i), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 303(r).

Acting Secretary.

Rule Changes

Part 97 of chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

PART 97—AMATEUR RADIO SERVICE

1. The authority citation for part 97 continues to read as follows:

Authority: 48 Stat. 1066, 1082, as amended; 47 U.S.C. 154, 303. Interpret or apply 48 Stat. 1064-1068, 1081-1105, as amended; 47 U.S.C. 151-155, 301-609, unless otherwise noted.

2. Section 97.109 is amended by revising paragraphs (d) and (e) to read as follows:

§ 97.109 Station control.

* * * * *

(d) When a station is being automatically controlled, the control operator need not be at the control point. Only stations specifically designated elsewhere in this part may be automatically controlled. Automatic control must cease upon notification by an EIC that the station is transmitting improperly or causing harmful interference to other stations. Automatic control must not be resumed without prior approval of the EIC.

(e) No station may be automatically controlled while transmitting third party communications, except a station transmitting a RTTY or data emission. All messages that are retransmitted must originate at a station that is being locally or remotely controlled.

3. A new § 97.221 is added to subpart C to read as follows:

§ 97.221 Automatically controlled digital station.

(a) This rule section does not apply to an auxiliary station, a beacon station, a repeater station, an earth station, a space station, or a space telecommand station.

(b) A station may be automatically controlled while transmitting a RTTY or

data emission on the 6 m or shorter wavelength bands, and on the 28.120-28.189 MHz, 24.925-24.930 MHz, 21.090-21.100 MHz, 18.105-18.110 MHz, 14.0950-14.0995 MHz, 14.1005-14.112 MHz, 10.140-10.150 MHz, 7.100-7.105 MHz, or 3.620-3.635 MHz segments.

(c) A station may be automatically controlled while transmitting a RTTY or data emission on any other frequency authorized for such emission types provided that:

(1) The station is responding to interrogation by a station under local or remote control; and

(2) No transmission from the automatically controlled station occupies a bandwidth of more than 500 Hz.

BILLING CODE 6712-01-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

49 CFR Part 390

[FHWA Docket No. MC-93-17]

RIN 2125-AD14

Federal Motor Carrier Safety Regulations; General; Intermodal Transportation

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice; extension of effective date.

SUMMARY: The Federal Highway Administration (FHWA) has received petitions from APL Land Transport Services, Inc., "K" Line America, Inc., and the Intermodal Safe Container Coalition seeking a delay in the June 27, 1995, effective date of the FHWA regulations implementing the provisions of the Intermodal Safe Container Transportation Act of 1992 [Pub. L. 102-548, 106 Stat. 3646, partly codified at 49 U.S.C. 5901-5907 (formerly 49 U.S.C. 501 and 508)]. Because of the complexities of both domestic and international intermodal operations, the FHWA believes these petitions have merit. The FHWA is, therefore, administratively extending the June 27 effective date until September 27, 1995, to allow the agency sufficient time to consider public comment on whether to further extend the effective date until 1996 as requested by the petitioners. In the very near future, the FHWA will publish a separate rulemaking in the **Federal Register** seeking comment on the petitioners' requests.
